-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the electric wave branch means comprising the first square main waveguide and the second square main waveguide must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

Art Unit: 2817

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, applicant recites "one electric wave" in lines 15 and 23, is applicant referring to the one electric wave recited in line 11 or a different electric wave?

In claim 1, applicant recites "this electric wave" in line 16, is applicant referring to the one electric wave recited in line 11, the electric wave recited in line 15 or a different electric wave

In claim 1, applicant recites "this electric wave" in line 24, examiner is not clear which electric wave applicant is referring.

In claim 1, applicant recites "an electric wave of a basic mode " in line 24, is applicant referring to the electric wave of a basic mode recited in line 16, or a different electric wave?

In claim 1, applicant recites "an electric wave of a higher mode " in line 25, is applicant referring to the electric wave of a higher mode recited in line 17, or a different electric wave?

With regards to claims 4 and 5, applicant recites the limitation, "which is blocked by short circuit plate". Examiner is not clear which end of the second square main waveguide applicant is referring to?

In claim 6, applicant recites "an electric wave of a higher mode " in line 13, is applicant referring to the electric wave of a higher mode recited in line 17 on page 17, or a different electric wave?

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ekelman, Jr. et al US Patent 4,504,805 disclose a multi port combiner for multi frequency microwave signals. .
